

# CritiBand MKII Multi-trauma Bandage

Product Code: B.Crit.H.100

## Product Specifications:

- The CritiBand MKII is the latest generation multi-trauma bandage developed by Be Safe Paramedical
- Specifically designed for those instances where maximum direct wound pressure is required to control severe external haemorrhaging
- Designed with the end-user in mind, i.e. can easily be self-applied
- Stitched in trauma pad
- Super stretch – for controlled application of direct wound pressure
- Self-securing – no need for pins or tape, CritiBand wraps onto itself
- Due to its generous length, CritiBand can be applied equally effectively to the head, torso, abdomen and extremities
- Due to its broad structure, pressure is applied in a diffuse manner and therefore does not create a tourniquet effect
- Dimensions: 100mm x 4.5m (stretched)

**Be Safe Paramedical cc**  
**South Africa** An ISO 9001:2008 Certified Company
