

# Road Cone - Collapsible with Light

Product Code: *RC.C.WL*

Road cones are an integral part on any scene where an area needs to be cordoned off for personal and scene safety.

It is important that the road cones used offer maximum visibility. This increases the distance to scene and allows other road users/ bystanders to act rather than react. Reaction to a cordoned off area can be more disastrous than the initial incident and Emergency Services Personnel can share many stories about the consequences of such reactions.

## Features:

- Manufactured from waterproof cloth and ABS
- Broad band of reflective cloth around circumference, maximising visibility
- Cone can be completely collapsed following use, avoiding storage issues as previously experienced with hard plastic road cones
- Base plate promotes stability of cone during operation
- Built in light, which is activated by pressing button at base of cone
- Light has 2 settings: flashing and continuous beam

## Dimensions:

- Extended: 25 x 25 x 45cm
- Folded: 25 x 25 x 4cm
- 800g
