

Stretcher - Criti Chair Stair Stretcher

Product Code: *STR.CRITI.CH*

The Criti Chair Stair stretcher is an emergency device utilised for evacuating injured or wheelchair bound people down stairs in emergency situations. It's common knowledge that most hydraulic lifts shut down during fire emergencies, leaving many injured and disabled persons in grave danger.

The Criti Chair Stair stretcher utilises a specialised conveyer tract wheel design that allows a single person to shift an injured person into the chair and evacuate them safely down a flight of stairs to safety.

Features:

- Manufactured from high strength aluminium alloy
- Utilised for evacuating patients down stairs in tall buildings
- Single or dual person operation
- Special wheel design provides excellent tracking and stability in confined spaces and in narrow stairwells
- Folds for easy storage
- Adjustable backrest ensures support for a range of patient heights
- Front and "free-loading" back handles allow for two-person operation
- Load bearing: 159kg

Dimensions:

- Shipping size: 108 x 53 x 23cm
- Product folded size: 106 x 51 x 21cm
- Product size 92 x 53 x 140cm
- 12kg

Standards Compliance:

- CE & ISO Certified

Using the Criti Chair Stair stretcher

The Criti Chair Stair stretcher folds up into a compact unit and can be stored on the wall bracket supplied with the unit.

When required in an emergency, the Criti Chair Stair stretcher is simply unfolded, the casualty is moved across into the high quality PVC seat and the Criti Chair Stair stretcher can then be used as a regular wheel chair.

When the casualty is required to be moved down a flight of stairs, the Criti Chair Stair stretcher becomes a true life-saving device.

Simply disengage the lever and the Criti Chair Stair stretcher will tilt slightly backwards. Continue down the stairs at a steady pace and the conveyer tracking system on the wheels will allow safe and comfortable passage down the stairs.

The Criti Chair Stair stretcher is a great asset in office blocks, hotels, Frail Care facilities and hospitals.
